## Chapter I: Into The Dream

### The Rabbit Hole

## Chapter II: Endless Days and Nights

### Forever

My hearts gone  
He no longer lies by my side  
He left at dawn  
And once I lie alone

Still endless days and nights  
I wait for you  
Cause deep inside this flame  
I know it's true

Forever starts today  
Forever we will be  
Forever's every day  
Forever faithfully

It's been three weeks  
(You know I had to leave)  
Your voice is all I have to hold  
I lie here alone  
(I'd be there if I could)  
Awaiting for my loves return

Still endless days and nights  
I wait for you  
Cause deep inside this flame  
I know it's true

Forever starts today  
Forever we will be  
Forever's every day  
Forever faithfully

And through it all  
No matter  
It all comes down to you

Forever starts today  
Forever we will be  
Forever's every day  
Forever faithfully

Forever I will be

## Chapter III: Forever Infinity

### All For You

The seasons come and go  
Another night another show  
I step into the lights  
Knowing we will be alright

Even when I'm far  
You know I'm always there with you  
And through this all

You know that you're the reason  
In everything I do  
It's all for you  
You know that you're my reason in life  
It's all for you

These faces come and go  
And all I do is think of you  
I'm on the long road home  
The road that leads me straight to you

I know it's hard  
I promise you we'll be alright  
And through this all

You know that you're the reason  
In everything I do  
It's all for you  
You know that you're my reason in life  
It's all for you

Chapter IV: The Storm  
Lost At Sea

My beautiful liar  
Why are you crying  
On your knees  
You've crucified yourself  
And now denial is rising

Why  
So tell me

So tell me how did you lose yourself at sea  
Drifting within  
So tell me why did you cast yourself away  
It's such a sweet addiction  
You should celebrate

My beautiful liar  
You are drowning  
In your fear  
You're cutting into me  
You think if I bleed  
It can save you

Why  
So tell me

So tell me how did you lose yourself at sea  
Drifting within this  
So tell me why did you cast yourself away  
It's such a sweet addiction  
You should celebrate

And you know if I could  
I'd take your pain  
But will you turn and face your disease

Chapter V: Standing In The Rain  
Mechanical Love

I remember you that night  
standing in the rain  
Your black stars  
Your black eyes  
I remember what you said  
Before I turned away  
My heart died  
Your sweetest lies

And if I saw you bleed  
I'd stay here till the end  
But you can't change for me

And I know you'll never understand me  
No matter how hard we try  
And I, know I'll never understand you  
And your mechanical love

I still hear you in my sleep  
Your running through my veins  
Your whispers, your machine  
we knew it was meant to be  
But never meant to last  
I'm sorry, you always knew

And if I saw you bleed  
I'd stay here till the end  
but you can't change for me

And I, know you'll never understand me  
No matter how hard we try  
And I, know I'll never understand you  
And your mechanical love

Jesse Landry *Barrow*

### Chapter VI: *The Underworld* Her Kiss

I feel you growing closer  
I feel you in the air  
And I call  
I know you hear the voices  
I know you're drawing near  
And I'm waiting

Come away  
Come away with me  
Come away

In the dawning of my night  
I am free  
Lying by your side

There's a fire in the water  
You're drifting into me  
Falling free  
Burning eternally  
Confessing all  
I keep thee

Come away  
Come away with me  
Come away

In the dawning of my night  
I am free  
Lying by your side  
And as the stars begin to call  
I awake  
As you're diving down for me

### Chapter VII: *The Promise* Into The Light

Can anybody tell me why  
We're lying here on the floor  
And neither of us can barely breathe at all  
The doctors saying hold on tight  
As we say our last goodbyes  
And this is a moment that changes our whole lives

And I still believe in the good  
And I still believe in the light  
And I wanna feel the sun  
I wanna free you tonight  
And I still believe in the good  
And I still believe in the light  
And I wanna feel the sun  
I wanna free you tonight

I'm staring deep into your eyes  
They're telling me the time has come  
And I know you're ready to rise and sail home  
The room is filling up with light  
As we say our last goodnight  
I thank you for every second of your life

And I still believe in the good  
And I still believe in the light  
And I wanna feel the sun  
I wanna free you tonight  
And I still believe in the good  
And I still believe in the light  
And I wanna feel the sun  
I wanna free you tonight

I'm falling, watching as your hurting  
I'm down here I'm on my knees  
How can I survive  
And you turn to me and promise me you're ready  
And tell me you'll be waiting on the other side

And I still believe in the good  
And I still believe in the light  
And I wanna feel the sun  
I wanna free you tonight  
And you showed me all the good  
And you lead me through light  
And you gave me the sun  
It's time to free you tonight

Chapter IX

*Empires Fall and Rise Again*  
The Great Divide

Chapter VIII: *Unconditional*  
You Always Believed

I think back on the years we shared  
All the times you stood by me  
All the pain you wiped away  
All the things you ever said  
I think back how you carried me  
And you never once have doubted me  
And you were my  
My hero through it all

I thank you for the moments of your life  
And never giving up on me

And you held me through it all  
And you never let me fall  
And you let me fly away  
And you always believed

I think back how you overcame  
All the times you could have slipped  
The way you fought the winds of change  
All the times your wings were clipped  
You taught me how to reach the stars  
You taught me how to heal my scars  
And you were my  
My hero through it all

I thank you for the moments of your life  
And never giving up on me

And you held me through it all  
And you never let me fall  
And you let me fly away  
And you always believed in me

How did we get this far  
How did this come to be  
Why does fear dominate  
When all we want is peace  
We've got to find a way to heal  
The wounds that we have bled  
The empires fall  
And rise again

Save us, save us from ourselves  
Now

We're fighting without a reason  
We're killing her softly day by day  
We're guilty we're all in treason  
It's time to mend this great divide

We have to end the hate  
And fight hypocrisy  
We have to believe in life  
And all humanity  
Think of the children that have to live  
In what we leave behind  
The empires fall  
And rise again

Save us, save us from ourselves  
Now

We're fighting without a reason  
We're killing her softly day by day  
We're guilty we're all in treason  
It's time to mend this great divide

Jeff Fabb *Dreams*

*Chapter X: Imagine  
Violet Skies*

Dullin from within to find a reason for it all  
Lost for years  
In the storm  
Waiting for the rain to stop from washing me away  
I held on tight  
Awaiting night

And I lay me down to sleep  
And find a world where I was free

Imagine a place  
Where dreams lead the way  
And all of your colors fade the grey  
Imagine the dream  
Now close both your eyes  
Fall into the violet skies

Deep inside your eyes it shows  
You've been lost for too long  
Out of touch  
On the edge  
I promise you will find a way  
I found a pathway home  
I'll carry you  
You're not alone

So now I lay us down to sleep  
I found a world where we are free

Imagine a place  
Where dreams lead the way  
And all of your colors fade the grey  
Imagine the dream

*Chapter XI: The Rabbit Hole  
The Dream*

lavender clouds  
Nothing matters here  
Flying above  
The ultraviolet sphere

And I will not look down

I am falling down the rabbit hole  
Come so come with me and float  
into the never ending dream

We see god  
In the morning sun  
Touching the moon  
Our birth has just begun

And I will not come down

I am falling down the rabbit hole  
Come so come with me and float  
into the never ending dream
